

Sheet Metal Employees

Interior Roofing is a well-established, growing and reputable commercial roofing and sheet metal company, in need of Sheet Metal Employees with expertise in architectural sheet metal and metal roofing applications. The rapid growth of our company has created the demand for someone who can step in and immediately hit the ground running. Our dynamic company provides an exciting, fun and fast paced environment to work in as well as social events throughout the year to keep the team spirit strong. Apprenticeship opportunities available to the right team player to help further or build your career.

Wage: \$25-40/hr depending on experience.

Essential Qualifications

- Experience within a roofing/sheet metal industry, and/or architectural sheet metal trade qualification preferred but not a must
- Basic computer knowledge
- Experience in application of metal roofing systems, metal fabrication and wall systems preferred but not a must
- Must have a valid driver's license.

Essential Responsibilities

- Complete daily workflow of assigned project(s) to finish on schedule within the labor hours allocated
- Ensure all projects meet the high quality standards required by our company and RCABC
- Ensure that safety standards are followed at all times
- Report directly to the Foreman
- Must have an eye for detail and understand simple mathematics

Our company is an equal employment opportunity company with a drug free work environment. In addition to our competitive wages, benefits and incentives, we provide you the opportunity to be an integral part of the continued growth of our company.
